

SKILLS-TU LIFE®
Building resilience for life

Skills to improve Mental Health resilience

Mental health/Well-being

**“The specialists in
attitude change”**

Skills-Tu Life™

This is an educational course designed to improve well-being, cognitive skills & outcomes for people who hold the lowest expectations for themselves. Skills-Tu Life reflects latest thinking, encouraging ambition and belief in an individuals' ability to overcome their problems.

Developing motivation, promoting independence and personal responsibility will enhance and develop the skills of individuals to improve the quality of their lives.

Mental health includes emotional, psychological, and social well-being, affecting how we think, feel, and act. It also determines how we handle stress, build relationships, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.

Contributing factors include:

- **Psychological**
- **Physical**
- **Social**

In practical terms it is a system of thinking and beliefs influenced by internal and/or external environments or situations. Skills-Tu Life delivers thinking skills and education that helps develop productive relationships whilst focused on integrating improved lifestyles with the challenges of mental health.

An asset based approach to mental health

Intuitive Thinking Skills has been delivering peer led training for over 12 years to health and wellbeing, employment and criminal justice commissioning bodies, partners and learners (people who use services).

We deliver services to people with perceived mental health challenges aggravated/brought on by long term unemployment, homelessness, relationships, health conditions, lifestyles, poor diet, disabilities, chronic illnesses, and life expectancy. We help people help themselves by inspiring change and we see 3000 + new learners per year with a mixture of issues including: Anxiety; Depression; Phobias; Schizophrenia; Post psychotic episodes; Addiction; Bereavement; Bi Polar; Eating disorders etc.

Our focus is on recovery and well-being, enabling a person to develop the skills to enjoy a meaningful and productive life. Additionally we have trained hundreds of professionals in peer led perspective that is psychologically and trauma informed. Those include work coaches, mental health, drugs/alcohol, criminal justice, advice & guidance and homelessness. Our reputation across the field has developed into a specialist, cutting edge provider of skills. Our social media is the strongest in the field with over 4000 former learners using accounts that support our face to face work.

The course takes into account the various challenges (barriers) that people face improving their well-being including:

- **Self-esteem/Low confidence**
- **Difficult/traumatic circumstances**
- **Social exclusion**
- **Learning difficulties**
- **Stigma**
- **Substance misuse**
- **Lifestyles**

Delivery

Delivery is based in a relaxed classroom setting, with learning based on soft skills, educational and wellbeing outcomes. Follow up sessions are aimed at developing practical knowledge and skill sets as a follow up to classroom time.

Referrals are taken from the local partnership and prospective learners are assessed and selected based on their needs.

We aim to have referrals processed with confirmation produced and sent to both referring agent and customer within 24 hours of contact.
